"It's like getting your first premium buds; you will start hearing sounds you haven't noticed before, turning old songs into new experiences."

★★★★★ - Mimi user

"The Mimi tuning gave a much greater sense of space and clarity to the audio outputted by the TV."

★★★★★ - Tech Radar

"...the difference was night and day. Mid tones that I struggled to hear got a healthy boost without a single hit to the bass or higher frequencies. It's seriously impressive."
